- E. Section J2.3, page J2-4 is hereby amendment as follows: (changes are in italics)

***“The elevated water tower shall be maintained at least half capacity and no less at all times for pressure and fire storage requirements. The government retains the right to keep the FAA owned airfield marking beacon, and associated electrical lines, on the elevated water tower. The beacon is excluded from privatization, as stated in J2.2.1, but the beacon will remain on top of the water tower.”*** Instead of **“The elevated water tower shall be maintained at least half capacity and no less at all times for pressure and fire storage requirements.**

F. Section J41 Right of Way, Exhibit B, page J41-47 is hereby modified as follows:

Building No.	Point of Demarcation Description
309 – Electrical point of demarcation	Secondary side of pad mounted transformer across the street.
309 – Industrial WW Pretreatment Plant	Invert of the plant's discharge into the first manhole of the sanitary wastewater collection system downstream of Bldg. 309
309 – Project ZQEL 99-9003	Series of valves controlling the direction of flow from the deicing pad lift station to the pretreatment plant. The privatized system owner shall own and control the valves leading to the new 20,000 gallon holding tanks, the existing 20,000 gallon holding tanks, and the industrial wastewater manhole. The government shall own and control the valve leading to the new 10,000 gallon holding tank, which is not being privatized. A layout and a schematic are shown on sheets U01 and U06 of the Apron Runoff/Stormwater/Deicing Collection System drawings which are included in the Technical Library.

G. Paragraph L.5 Organization, is hereby revised to include Schedule L-2 as follows:
